PATENT CEMENT ROOFING.

THE undersigned is prepared to introduce into use in Tennessee W. E. CHILDS & CO'S PATENT LASTIC FIRE AND WATER-PROOF CEMENT ROOF-NG, and asks the attention of Architects, Builders, Railroad Companies, and the public, to examine its superiority over other Roofing.

Architects and Builders Should not ian to examine this Rooting, as it is bette and cheaper than any thing in use. The materi forms a hard and smooth surface that will resist th action of the atmosphere in every climate. It is in pervious to water, clustic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to its urability, there is no question.

It is practically imperishable, and will perfectly reest any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over or-finary good sheathing, old shingles, tar and gravel, in, zinc, copper, or iron roofs—it making no difference low steep or flat they may be—for seven dollars per one hundred square feet; it being far cheaper than any oof of the old style, and we are sure it will give betrented to cover or mend old leaky tin, tar and gravel cools, or around chimneys, scuttles, dormer windows and gutters, where the tin is rusted through. This

Coment can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be cemented over (and waranted not to leak) at two dollars and fifty cents per nundred square feet, which is cheaper and much bet-er than paint. This Roofing will be found to be the est thing for covering large Roofs where they are ex-osed to fire—such as Steam Mills, Saw Mills, Factoles, Railroad Cars, Bridges, Depots, Station Houses teambout Decks, and in fact every kind of Roof where here is an external exposure from fire. As the Roof perfect, without a joint in it, it presents no chance ourn out without igniting.

#27 Insurance Offices at Cincinnati, and other places where Childs & Co's Cement has been used, in buildings with Roofs covered with this Cement, at the me rates as for those covered with Iron, Copper or Be The Cement will be furnished to those at a disance with directions for using.

4.5 Orders sent to the undersigned, through the ost Office will be promptly attended to. I would respectfully refer to the following rentle-

The Cherokee Corn Planter! PATENTED BY ELLIS & CHARLTON, Sept. 8th, 1857. THE only cheap, durable and efficient machine for planting corn ever presented to the Flantars of Temperature, is now on exhibition at Messrs. Armstratog & Co's, No. 59 Market street, Nashville.

The Cherokee Corn Planter recommends itself above alt others, for its durability, cheapmens, simplicity, and the perfect manner that it performs the following described work.

It furrows out the ground to any required depthdrops the corn, as many kernels as desired, in a space If furrows out the ground to any required depth—drops the cown, as many kernels as desired, in a space of foor inches disaneter, mathematically in the hill—covers the hills and presses the casth, (as by the old method with the hoo)—and marks accurately the position of each hill. With a single horse, a man or boy can plant ten to fifteen acres per day with case.

Planters and others are invited to an examination of this machine, at Messra Armstrong & Co's, where it may be seen daily in practical operation.

Persons wishing to purchase County Rights in this or adjoining states, by applying immediately, (as territory is being disposal of rapidly,) can do so upon such terms as will insure them a large return on the investment. Call at once at No. 69 Market street, Nashville.

The Great English Remedy. Thorn's Compound Extract of Copaiba and Sarsaparilla, Copaiba and Sarsaparilla,

Possesses advantages not enjoyed by any other medicine for the cure of sexual diseases, which must with an enlightened public render it assuredly highly popular, and a desideratum long sought for in the medical world. It needs no confinement or change of diet. In its approved form, that of paste, it is entirely tasteless, and causes no unpleasant sensation to the patient. It has acquired the utmost fame in almost every part of Europe; it has been examined, approved of, and sanctioned by the faculty of medicine, and recommended by the most eminent of the profession. Prepared by J. W. THORN, Chemist, London, and for salo, wholesale and retail, by John A. Tarrany & Go., Agents for the United States, 278 Greenwich street, New York. As the above valuable preparation has been extensively counterfeited by unprincipled parties in the United States, the proprietor has adopted, as a precaution against imposition on consumers, a Label, of which the following is a fac simile, and which will be found burnt in upon the bottom of each pot of the genuine

The stamp around each pot will also bear the names f the Proprietor and of the United States agents. Druggists and Dealers will observe on each dozen package the following label:
IMPORTANT CAUTION.—The increased reputation and great demand for Thorn's Compound Extract of Copai-ba and Sarsaparilla, have been inducements for others to offer imitations of this valuable medicine. Venders are particularly warned of this fact, that they may be on their guard, and not dispose of any impure article calculated to injure their reputation, and destroy the merits of the original preparation, to obviate which the Subscriber (successor to James Tarrant, by whom it was first introduced into the United States) has atched his signature to this caution, to counterfe hich is forgery.
